Dear Dwight:

I want to thank you for your prompt assistance with our recent plumbing problem. Your action serves as a clear example of your professionalism and exceptional integrity.

I also want to officially thank you for the fine work that your company produced on our nursery addition. This was a very difficult and complex project encompassing more than 10,000 sf of highly detailed and high end finish. The work performed reflects unusual skills in the industry. As you are aware, I have long admired your honesty and integrity and you clearly exhibited those qualities throughout our project. The project could only have been better if we had experience less omissions on the part of the architect & structural engineer.

Dwight, as you know, I have been involved in hundreds of large commercial projects, including several church projects, during my career of nearly 40 years and I would not hesitate to recommend you for any future projects. So this is my "tip-of-the-hat" to you. If I can be of any assistance to you, please do not hesitate to call.

On behalf of Webb Chapel Church of Christ, thanks and God bless.

Sincerely,

Roger C. Troy
Building Committee & Building Manager
